

GLAD NEWSLETTER # 4 – FALL 2018 (November 30)

(A) This newsletter is very short, as it is accompanied by two documents (attached):

1) **Detailed minutes from the recent GLAD steering committee meeting**, held October 12-13, in Henrik's home in Gilleleje, Denmark:

2) **The first academic article on the GLAD Network**, jointly written by the GLAD steering committee: "Introducing and developing GLAD – The Global Anglicism Database Network". It will be published in the (online only) *ESSE Messenger* winter 2018 issue.

(B) ***The status of the GLAD A-Z Anglicism database:***

In both attachments you will find lots of information on the goals, the results and the present challenges of GLAD. As mentioned in the minutes, we still miss data – especially for letters D, E, and F – from several contributors, and we encourage GLAD members representing 'new' languages to contribute to the database – and/or to ask colleagues to join this project. New contributors may start with letters A, B and C, using the guidelines and the template on the GLAD website: www.gladnetwork.org.

Upcoming deadlines: Letters G-J: March 1, 2019. Letters K-N: August 1, 2019. Letters O-R: January 1, 2020. Letter S: June 1, 2020. Letters T-Z: November 1, 2020. (5-month intervals; same work load in each period.)

The next open GLAD meeting – for all interested parties: Germany, May 2019 (details not settled yet).

Looking forward to receiving contributions from all of you – and, on behalf of the committee and the Bergen team at the NHH, wishing you a GLAD and active winter,

Henrik Gottlieb
